## About Me

I recently graduated in Software Engineering from ESIEA Paris. I am motivated, adaptable, and open to both technical and non-technical job opportunities. I am available immediately and eager to work and learn.

## Skills

### Technical

- JavaScript, React, Vue, HTML, CSS, Tailwind
- Node.js, PHP, Python
- MySQL, NoSQL
- Git, GitHub, GitLab, Docker
- Agile methodology

### Soft Skills

- Communication, Easy to integrate
- Adaptability & quick learner
- Teamwork & problem-solving
- Time management
- Reliable & motivated

## Education

### Engineering Degree: Computer Science

ESIEA Paris + EPI Sousse

08/2019 – 06/2025

Key Courses: System Programming, Network Design, Application Architecture and Design, Database Management Systems, Full-Stack Development

**Graduated with High Honors**

## Experience

### Full Stack Developer

SW Consulting

08/2025 – Present

Developed scalable APIs and redesigned the Credit Win web application for banks to improve system reliability and performance.

- Designed and implemented RESTful APIs for banking features (user roles, OVH mailing system, banking feasibility calculations)
- Optimized Prisma schema and queries for large-scale banking data management
- Participation au développement agile via Jira, Git et revues de code pour maintenir une haute qualité logicielle
- Collaborated with frontend teams to ensure smooth Next.js integration and data consistency
- Contributed to agile development through Jira, Git, and code reviews to maintain high code quality

### Web Developer Intern

Medtrust Consulting

12/2024 – 06/2025

#### Project: Recruitment Application – WorkIt

Web platform for managing job offers, candidates, and interview processes for internal HR use.

- Participated in the entire application lifecycle: design, development, testing, and deployment.
- Developed the backend with NestJS, PostgreSQL, and JWT for secure authentication.
- Built the frontend with Vue.js and Tailwind CSS, focusing on a responsive interface and smooth user experience.
- Wrote unit and integration tests; deployed the application for internal use.

### Web Developer Intern

HDM Network

04/2023 – 08/2023

- Developed a task management module for the company's dashboard
- Built front-end interfaces for a real estate rental platform
- Participated in a VR game challenge using the A-Frame (WebXR) framework
- Created a web-scraping script for an internal competition

## Completed Projects

- Certification Web App – Institut De Savoir (PHP, 2024)
- City Trip Mapper (React.js, Mapbox API – 2024)
- CheckMyHTTPS – Browser extension & mobile app (2023)
- CMDB API (TypeScript – 2023)

Full-Stack Counter Application (Vue.js – 2023)

## Certifications

- Front End Development Libraries – FreeCodeCamp (Mar 2023)
- JavaScript Algorithms and Data Structures – FreeCodeCamp (Dec 2022)
- Responsive Web Design – FreeCodeCamp (Apr 2022)
- Create & Manage Cloud Resources – Google Qwiklabs (Apr 2022)

## Additional Informations

### Languages::

Arabic (native) · French (fluent) · English (fluent) · Polish(beginner) · German (beginner)

### Interests:

Chess (ELO 1300) · Tactical Shooters · Competitive Programming

### Volunteering:

Programming Languages Instructor · Event & Competition Organizer
